These are notes and doodles from my first ever audio commission (which later beca "Soldier Obscura" in this exciting box set.) Pretty, right? Don't have time for notes a doodles now. I hire someone else to do them for me.

But I will leave you with this emblem of a beginning whilst I faff around and set thi up. I'm slowly finishing a huuuuge commission and I kinda battened down the hatc for it, so I feel the need to reconnect with the outside world. Expect comments on what I'm writing, what I'm listening to, and just general love and hugs for one of m favourite mediums.
